

Congratulations for choosing to buy a Creative Green Life Carry-All Tote Bag! This extra-large tote is the must-have carry-all to take traveling, camping, or to kids' sporting events. It's without a doubt the bag you didn't know you needed but can't live without! To help you get the most out of your new bag:

1. Use it as an open top tote bag or zip it closed to keep everything inside hidden and safe. Pull the top flaps up while unzipped to add extra height!
2. The all-weather fabric is durable and water-resistant, but water will leak in through the seams if submerged.
3. Pack it in your suitcase next time you travel. The unique fold-flat design won't take up much space and will give you an extra bag for vacation shopping.
